

AMENDMENT TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS

5 Claims 1-13 (canceled)

 Claim 14 (amended) A brush structure, comprising:

 a rotation bar comprising a plurality of arc-shaped plates combined with each other, each of the arc-shaped plates comprising two sides each formed with a helical rim, so that a plurality of helical grooves are defined
10 between the helical rims;

 a plurality of brush strips each installed in a related one of the helical grooves of the rotation bar and formed with two sides each defining a groove for receiving the related helical rim of each of the arc-shaped plates of the rotation bar;

15 a plurality of fixing blocks each installed in the rotation bar between the arc-shaped plates; and

 a driving block mounted on the rotation bar in order to rotate the rotation bar.

 Claim 15 (amended) A brush structure, comprising:

20 a rotation bar comprising a plurality of arc-shaped plates combined with each other, each of the arc-shaped plates comprising two sides each formed with a helical rim, so that a plurality of helical grooves are defined between the helical rims;

 a plurality of brush strips each installed in a related one of the helical
25 grooves of the rotation bar;

 a plurality of fixing blocks each installed in the rotation bar between the arc-shaped plates; and

a driving block mounted on the rotation bar in order to rotate the rotation bar and formed with a periphery defining a plurality of recesses each for receiving an end of a related one of the brush strips.
